(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (un-audited)
FOR THE THREE AND NINE MONTHS ENDED NOVEMBER 30, 2019 AND 2018
(Expressed in Canadian Dollars)

1. CORPORATION INFORMATION

Julian Resources Inc. (the "Company") was incorporated on October 17, 2006 under the laws of British Columbia. The Company was a capital pool company as defined in the TSX Venture Exchange (the "Exchange") Policy 2.4. On July 28, 2009, the Exchange accepted for filing the Company's Qualifying Transaction, as a result, the Company resumed trading as a Tier 2 mining company under the symbol "JLR", on August 26, 2009. On February 12, 2016, the Company was transferred to NEX of the Exchange due to not being able to meet Tier 2 Continued Listing Requirements. The trading symbol of the Company was changed to "JLR.H".

The Exchange granted final approval on the reactivation of Julian from the NEX Board of the Exchange to Tier 2 of the Exchange effective Tuesday October 9, 2018. The Company commenced trading on the Exchange Tier 2 under symbol "JLR" on the effective date.

The Company's corporate office and principal place of business is located at 335 – 1632 Dickson Avenue, Kelowna, BC V1Y 7T2.

The Company is primarily engaged in the acquisition, exploration and development of mineral properties located in Canada. To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The Company's current properties include mineral properties located in British Columbia.

2. BASIS OF PREPARATION AND GOING CONCERN

These condensed interim financial statements for the three and nine month period ended November 30, 2019 and 2018 have been prepared in accordance with IAS 34 Interim Financial Reporting. These condensed interim financial statements follow the same accounting policies and methods of application of the Company's most recent annual financial statements. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Company's 2019 annual financial statements which have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), and Interpretations of the International Financial Reporting Interpretations Committee.

The condensed interim financial statements were authorized for issue by the Board of Directors on January 21, 2020.

These condensed interim financial statements have been prepared on the historical cost basis except for financial instruments measured at fair value. The condensed interim financial statements are presented in Canadian dollars ("CDN"), which is the Company's functional currency. The preparation of condensed interim financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to these condensed interim financial statements are disclosed in Note 4.

Going Concern

These condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company has not generated revenues from its operations to date. These condensed interim financial statements are prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company had a net loss of \$56,049 for the period ended November 30, 2019 (2018 - \$96,494) and has accumulated a deficit of \$2,353,831 (February 28, 2019 - \$2,297,781) since inception. The Company will continue to have to raise funds to resolve its current working capital deficit in order to continue the development of its exploration properties and general operations.

As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties. The Company has financed its operations to date primarily through the issuance of common shares and exercise of stock options and share purchase warrants.

JULIAN RESOURCES INC.

(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (un-audited)
FOR THE THREE AND NINE MONTHS ENDED NOVEMBER 30, 2019 AND 2018
(Expressed in Canadian Dollars)

2. BASIS OF PREPARATION AND GOING CONCERN (cont'd)

Management cannot provide assurance that the Company will ultimately achieve profitable operations or positive cash flow. The Company's continuation as a going concern is dependent on its ability to attain profitable operations and raise additional capital. These matters indicate the existence of material uncertainties that cast significant doubt about the Company's ability to continue as a going concern. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported revenues and expenses and statement of financial position classifications that would be necessary if the going concern assumption was inappropriate. Such adjustments could be material.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

New Accounting Standards Adopted During the Period

The Company has adopted the following new and revised accounting pronouncements:

New Standard IFRS 16 "Leases"

On March 1, 2019 the Company adopted the new standard IFRS 16 which replaces IAS 17 "Leases" and the related interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing single, on-balance sheet accounting model that is similar to current finance lease accounting, with the limited exceptions for short-term leases or leases of low value assets. Lessor accounting is not substantially changed. The standard is applicable to the Company's annual period beginning on or after March 1, 2019. There are no expected changes to the carrying value of any of the Company's assets or liabilities as a result of the adoption of this new accounting standard and there was no impact as a result of the adoption of IFRS 16 as the Company is not subject to any leases.

New Standard IFRS 2 "Share-Based Payments"

On March 1, 2019, the Company adopted the new accounting standard IFRS 2. The amendments eliminate the diversity in practice in the classification and measurement of particular share-based payment transactions which are narrow in scope and address specific areas of classification and measurement. The Company has concluded that there is no significant impact resulting from the application of the new standard on its financial statements.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

Significant Accounting Judgements, Estimates and Assumptions

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized in the period of the change, if the change affects that period only, or in the period of the change and future years, if the change affects both.

Information about critical judgments and estimates in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities included in the preparation of these financial statements are discussed below:

Going Concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year, and to fund planned and contractual exploration programs, involves significant judgement based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

JULIAN RESOURCES INC.*(An Exploration Stage Company)*

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (un-audited)
 FOR THE THREE AND NINE MONTHS ENDED NOVEMBER 30, 2019 AND 2018
 (Expressed in Canadian Dollars)

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (cont'd)**Significant Accounting Judgements, Estimates and Assumptions (cont'd)***Impairment of Exploration and Evaluation Assets*

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company. If, after exploration and evaluation expenditures are capitalized, information becomes available suggesting that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount the Company carries out an impairment test at the cash-generating unit or group of cash-generating unit's level in the year the new information becomes available. Such impairment tests and recoverable value models have a degree of estimation and judgment which may differ in the future.

Valuation of Share-based Payments

The Company uses the Black-Scholes option pricing model for valuation of share-based payments. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash on hand, demand deposits with financial institutions, and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and subject to an insignificant risk of change in value. Cash at banks and on hand earns interest at floating rates based on daily bank deposit rates. During the period ended November 30, 2019 cash equivalents were held in a cashable guaranteed investment certificate with a maturity date of August 20, 2019 and with an interest rate of 1.3%. During the period ended November 30, 2019 the Company recorded investment income of \$9,420 (2018 – 1,268) in net loss and comprehensive loss.

Acquisition costs	-	-	-
Exploration costs	741,699	-	741,699
Balance at November 30, 2019	\$ 1,303,670	-	1,303,670

Big Kidd and Little Fort Property

The Company on March 30, 2011 pursuant to a purchase agreement (the "Agreement") acquired a 100% interest in the Big Kidd Property and the Little Fort Property, located in British Columbia subject to net smelter royalty of 2.5% (the "Royalty"). Upon commencement of commercial production, the Company has the right to purchase a 60% interest in the Royalty for \$500,000 and the remaining 40% Royalty for \$1,000,000 at any time within three years following the commencement of commercial production.

During the year ended February 28, 2019 the Company's Little Fort claims expired and all acquisition and exploration expenditures in the amount of \$115,781 were written off, in accordance with Level 3 of the fair value hierarchy.

Realization

The Company's investment in and expenditures on exploration and evaluation assets comprise a significant portion of the Company's assets. Realization of the Company's investment in the assets is dependent on establishing legal ownership of the property interest, on the attainment of successful commercial production or from the proceeds of its disposal. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of the property interest, and upon future profitable production or proceeds from the disposition thereof.

a. Title

Although the Company has taken steps to ensure the title to exploration and evaluation assets in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures may not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

b. Environmental

Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions. If the restrictions adversely affect the scope of exploration and development on the exploration and evaluation assets, the potential for production on the property may be diminished or negated.

8. RECLAMATION BOND

The Company is required to make reclamation deposits in respect of its expected rehabilitation obligations. The reclamation deposits represent collateral for possible reclamation activities necessary on mineral properties in connection with the permits required for exploration activities by the Company on its Big Kidd property. The reclamation deposits are held with the Minister of Energy and Mines in British Columbia. The reclamation bond includes a guaranteed investment certificate with a maturity date of December 5, 2019 with an interest rate of 1.25%.

Balance at February 28, 2019	31,286,667	-	3,309,957
Share issue costs	-	-	(282)
Balance November 30, 2019	31,286,667	-	3,309,675

During the period ended November 30, 2019 there were no share issuances.

The Company recorded \$282 in share issues costs for transfer agent fees in connection with share issuances in the prior year.

During the year ended February 28, 2019, the Company issued the following:

Private Placement

On June 15, 2018, the Company issued 16,666,667 units at a price of \$0.06 per unit ("Unit") for gross proceeds of \$1,000,000. Each Unit consists of one common share of the Company and one share purchase warrant entitling the holder to purchase an additional common share of the Company for a period of three years at a price of \$0.10 per share.

Share issue costs include agent's fees of \$29,550 in cash and grant of 492,521 Agent's Warrant exercisable to acquire one common share at an exercise price of \$0.10 for a period of one year in relation to the Units. The fair value of the non-cash share issuance costs of \$655 for the Agent's Warrants was estimated using the Black-Scholes option pricing model based on the following weighted average assumptions: share price on issuance date of \$0.05, exercise price of \$0.10, risk-free interest rate of 1.77%, average projected volatility of 63.12%, dividend yield of nil, average expected life of the options of 1 year and the fair value of the warrants of \$0.001.

On December 24, 2018 the Company completed an offering by issuing 1,500,000 common shares of the Company that qualify as flow-through shares for purposes of the *Income Tax Act* (Canada) ("FT Shares") at issue price of \$0.10 per FT Share for gross proceeds of \$150,000. During the period ended May 31, 2019 the Company fulfilled the \$150,000 of qualifying Canadian Exploration Expenditures.

JULIAN RESOURCES INC.*(An Exploration Stage Company)*

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (un-audited)
 FOR THE THREE AND NINE MONTHS ENDED NOVEMBER 30, 2019 AND 2018
 (Expressed in Canadian Dollars)

10. SHARE CAPITAL AND RESERVES (cont'd)**a) Common Shares**

Share issue costs include agent's fees of \$5,250 in cash and the grant of 105,000 Agent's Warrant exercisable to acquire one common share at an exercise price of \$0.10 for a period of one year in relation to the FT Shares. The fair value of the non-cash share issuance costs of \$3,505 for the Agent's Warrants was estimated using the Black-Scholes option pricing model based on the following weighted average assumptions: share price on issuance date of \$0.105, exercise price of \$0.10, risk-free interest rate of 1.90%, average projected volatility of 75.38%, dividend yield of nil, average expected life of the options of 1 year and the fair value of the warrants of \$0.03.

1,500,000 warrants with an exercise price of \$0.10 were exercised for gross proceeds of \$150,000. On exercise, \$15,000 was reclassified from warrant reserves to share capital. The weighted average share price on the date of exercise of these warrants was \$0.10.

Additional administrative and filing fees in the amount of \$4,270 were incurred in connection with the financings completed during the year ended February 28, 2019.

25,000 options with an exercise price of \$0.07 were exercised for gross proceeds of \$1,750. On exercise, \$904 was reclassified from warrant reserves to share capital. The weighted average share price on the date of exercise of these warrants was \$0.07.

b) Share Purchase Warrants

The following is a summary of changes in share purchase warrants from March 1, 2018 to November 30, 2019:

	Number of Warrants	Exercise Price	Weighted Average Exercise Price
Balance, February 28, 2018	-	-	-
Issued	16,666,667	\$0.10	\$0.10
Exercised	(1,500,000)		
Balance at February 28, 2019 and November 30, 2019	15,166,667		\$0.10

As at November 30, 2019, 15,166,667 (February 28, 2019 – 15,166,667 share purchase warrants were outstanding and exercisable with a weighted average remaining contractual life of 1.54 (February 28, 2019 – 2.21) years.

Expiry Date	Exercise Price	Number of Warrants
June 15, 2021	\$0.10	15,166,667

c) Agents' Warrants

The following is a summary of changes in share purchase warrants from March 1, 2018 to November 30, 2019:

	Number of Warrants	Exercise Price	Weighted Average Exercise Price
Balance, February 28, 2018	-	-	-
Issued	597,521	\$0.10	\$0.10
Balance at February 28, 2019	597,521	\$0.10	\$0.10
Expired	(492,521)	\$0.10	\$0.10
Balance at November 30, 2019	105,000	\$0.10	\$0.10

As at November 30, 2019, 105,000 (February 28, 2019 – 597,521) agent's warrants were outstanding and exercisable with a weighted average remaining contractual life of .07 (February 28, 2019 - .36) years.

Expiry Date	Exercise Price	Number of Warrants
December 24, 2019	\$0.10	105,000
