

Management Discussion and Analysis

For the Year End February 28, 2022

The following management's discussion and analysis ("MD&A") has been prepared as of June 21, 2022 and should be read in conjunction with the with the audited consolidated financial statements for the year ended February 28, 2022 and related notes thereto which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. References throughout the report we refer to **South Atlantic**, the "**Company**", "**we**", "**us**", "**our**" or "**its**". All these terms are used in respect of South Atlantic Gold Inc. and/or its wholly owned subsidiaries. Further information on the Company is available on SEDAR at www.sedar.com. Information is also available on the Company's website at www.southatlanticgold.com. Information on risks associated with investing in the Company's securities is contained in this MD&A.

All amounts stated are in Canadian dollars unless otherwise stated.

Cautionary Statement on Forward-Looking Information

This report contains "forward-looking statements", including, the Company's expectations as to but not limited to, comments regarding the timing and content of upcoming work programs and exploration budgets, geological interpretations, receipt of property titles, and potential mineral recovery processes. Forward-looking statements express, as at the date of this report, the Company's plans, estimates, forecasts, projections, expectations, or beliefs as to future events or results. The material factors and assumptions used to develop the forward-looking statements and forward-looking information contained in this MD&A include without limitation the following: assumptions, risks and uncertainties associated with general economic conditions; the COVID-19 pandemic; adverse industry events; our approved budgets, exploration and assay results, results of the Company's planned exploration expenditure programs, estimated drilling success rates and other prospects. Due to the nature of the mineral resource industry, budgets are regularly reviewed in light of the success of the expenditures and other opportunities that may become available to the Company. Accordingly, while the Company anticipates that it will have the ability to spend the funds available to it, there may be circumstances where, for sound business reasons, a reallocation of funds may be prudent.

Forward-looking statements involve a number of risks and uncertainties, and there can be no assurance that such statements will prove to be accurate. Therefore, actual results and future events could differ materially from those anticipated in such statements and South Atlantic assumes no obligation to update forward-looking information in light of actual events or results.

Factors that could cause results or events to differ materially from current expectations expressed or implied by the forward-looking statements, include, but are not limited to, factors associated with fluctuations in the market price of minerals, mining industry risks and hazards, environmental risks and hazards, economic and political events affecting metal supply and demand, uncertainty as to calculation of mineral reserves and resources, requirement of additional financing, and other risks. Actual results may differ materially from those currently anticipated in such statements.

Readers are cautioned that the foregoing list of important factors and assumptions is not exhaustive. Forward-looking statements are not guarantees of future performance. Events or circumstances could cause the Company's actual results to differ materially from those estimated or projected and expressed in, or implied by, these forward-looking statements. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of factors, whether as a result of new information or future events or otherwise, except as may be required under applicable laws.

Overview Performance and Operations

South Atlantic Gold Inc. (the “**Company**”) was incorporated on October 17, 2006 under the laws of British Columbia, Canada under the laws of British Columbia, Canada. On November 19, 2020, the Company changed its name from Jiulian Resources Inc. to South Atlantic Gold Inc. Effective November 24, 2020, the Company commenced trading on the TSX Venture Exchange (the “**Exchange**”) under the new symbol “**SAO**” as a Tier 2 issuer on November 24, 2020.

The Company’s corporate office and principal place of business is located at 335 – 1632 Dickson Avenue, Kelowna, BC V1Y 7T2.

As at the date of this report South Atlantic Gold has the following wholly owned subsidiaries:

Name of Subsidiary	Jurisdiction
SOUTH ATLANTIC GOLD BRASIL EXPLORACAO MINERAL LTDA (“ SAG ”)	Brazil

Projects and Exploration

The Company is primarily engaged in the acquisition, exploration and development of mineral properties located in Brazil and Canada. To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The Company’s current properties include a 100% interest in the Big Kidd project located in British Columbia and a 100% interest in the Pedra Branca project in Brazil.

****This report may contain information about adjacent properties on which South Atlantic has no right to explore or mine. Readers are cautioned that mineral deposits on adjacent properties are not indicative of mineral deposits on the Company’s properties.***

Qualified Persons

*The scientific and technical information that forms the basis for parts of this MD&A with respect to the Pedra Branca project was reviewed and approved by Marcelo Antonio Batelochi (P.Ge.), MAUSIMM (CP), the Company’s Exploration Manager who is a Qualified Person as defined by National Instrument 43-101 (“**QP**”).*

Pedra Branca - Brazil

On June 11, 2021, the Company completed the Earn-In Expenditures and acquired the initial 75% interest in the Pedra Branca Project.

On June 28, 2021 the Company completed its maiden inferred resource pursuant to National Instrument (“**NI**”) 43-101 technical report standards dated April 25, 2021 and entitled “*Mineral Resource Estimation for the Pedra Branca Gold Project Ceará State – Brazil*” authored by Rodrigo Mello, FAusIMM of RBM Consultoria Mineral Belo Horizonte, Brazil (the “**2021 – NI 43-101 Report**”) and is filed under the Company’s profile on the SEDAR website at www.sedar.com.

Upon completion of the 2021 – NI 43-101 Report the Company acquired a further 25% interest and now holds a 100% interest in Pedra Branca

The inferred resource was completed by the consolidation of historical drilling and Phase 1 Reverse Circulation (“**RC**”) drilling results with an average depth of 41.2 meters (“m”).

2022 - Exploration & Outlook

Exploration

The Company recently achieved another milestone for the Phase II exploration program for Pedra Branca which included a high-resolution Unmanned Airborne Vehicle (“**UAV**” or “**drone**”) magnetic survey. The initial results of the UAV survey define a distinct signature over areas of known mineralization that, when combined with other datasets, demonstrates the potential for gold mineralization to extend well beyond the

limits of the current inferred resource (click [here](#) for technical report and [here](#) for UAV program news release dated April 8, 2022).

Highlights

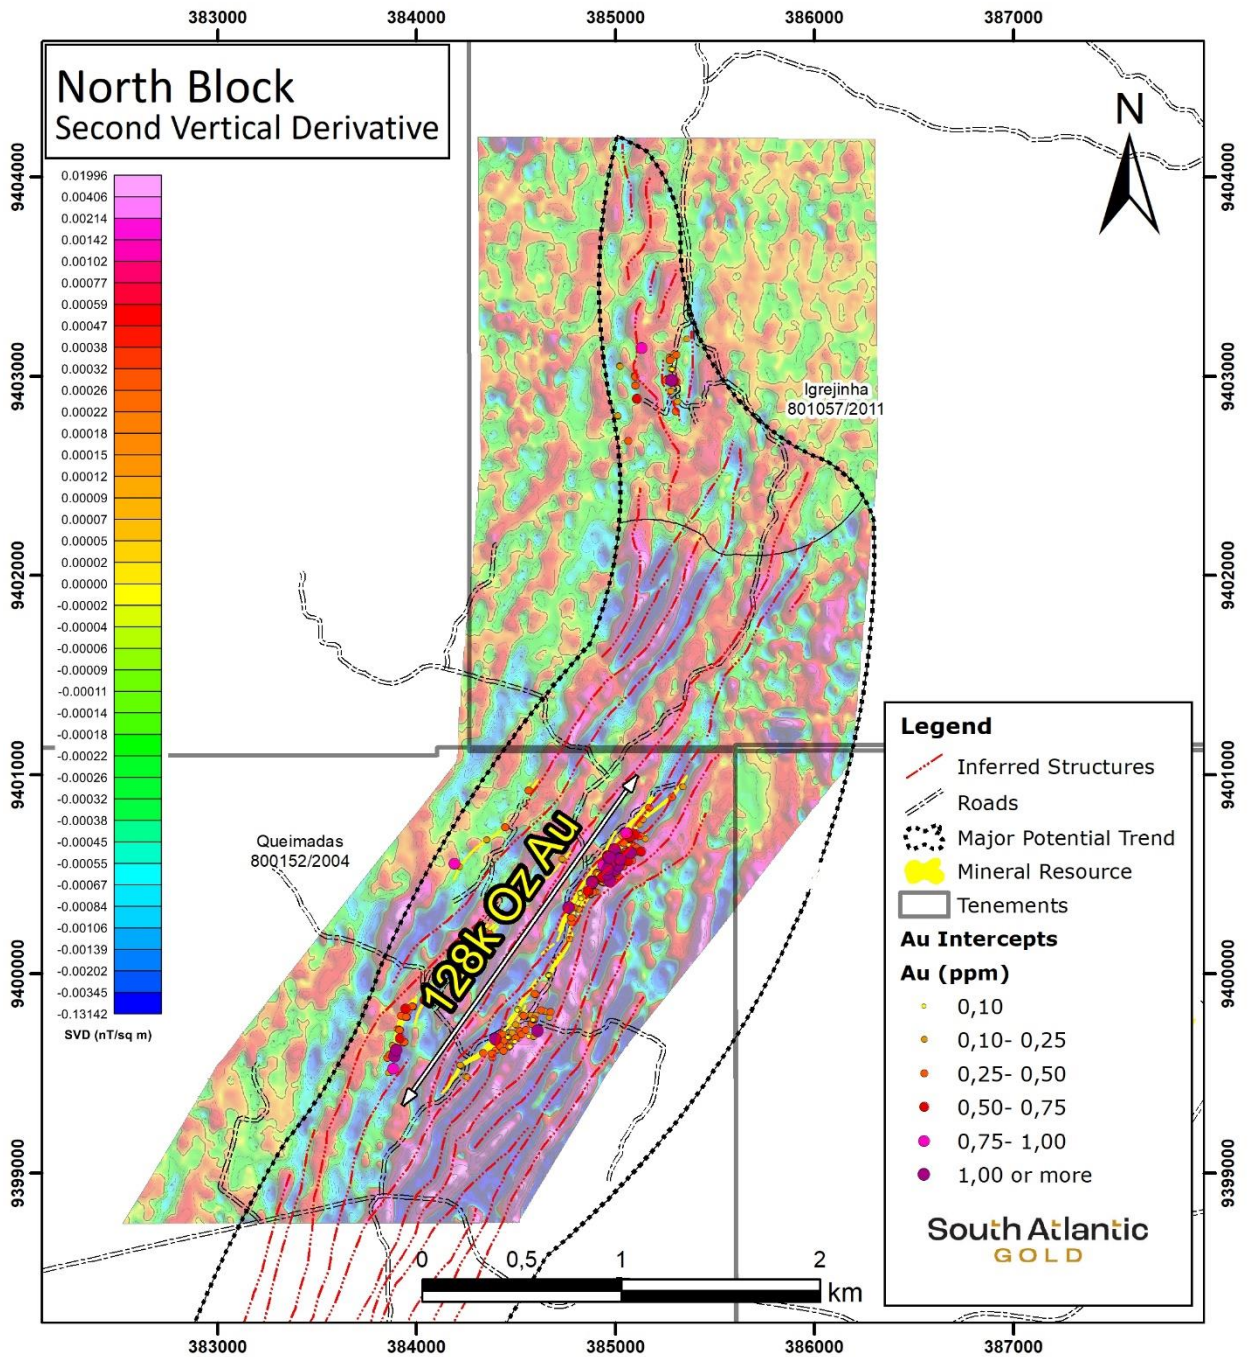

- **Phase I and II Exploration Consolidation:** See below for a table of total exploration work for both Phase I and Phase II. Pedra Branca consolidated exploration now has a total of 165 RC and 90 Diamond Drill (historical) holes with a total of 15,592 meters (“m”) drilled and 9,353 samples assayed. The RC hole depth averaged 38.5 m. Consolidated results previously published data is available on our website www.southatlanticgold.com.
- **Magnetic Signature:** The high-resolution drone survey has identified geological structures that are coincident with previously defined gold mineralization. These geological structures have been delineated farther than the extents of the known gold mineralization and provide numerous targets that will need to be tested with further exploration.
- **Licensing and Permitting:** The Company filed exploration reports required by Agencia Nacional de Mineração (“ANM”), the Brazilian mining agency, on-time and secured legal status for 15 tenements.
- **Phase II was completed on time and on budget.**

Consolidated Exploration

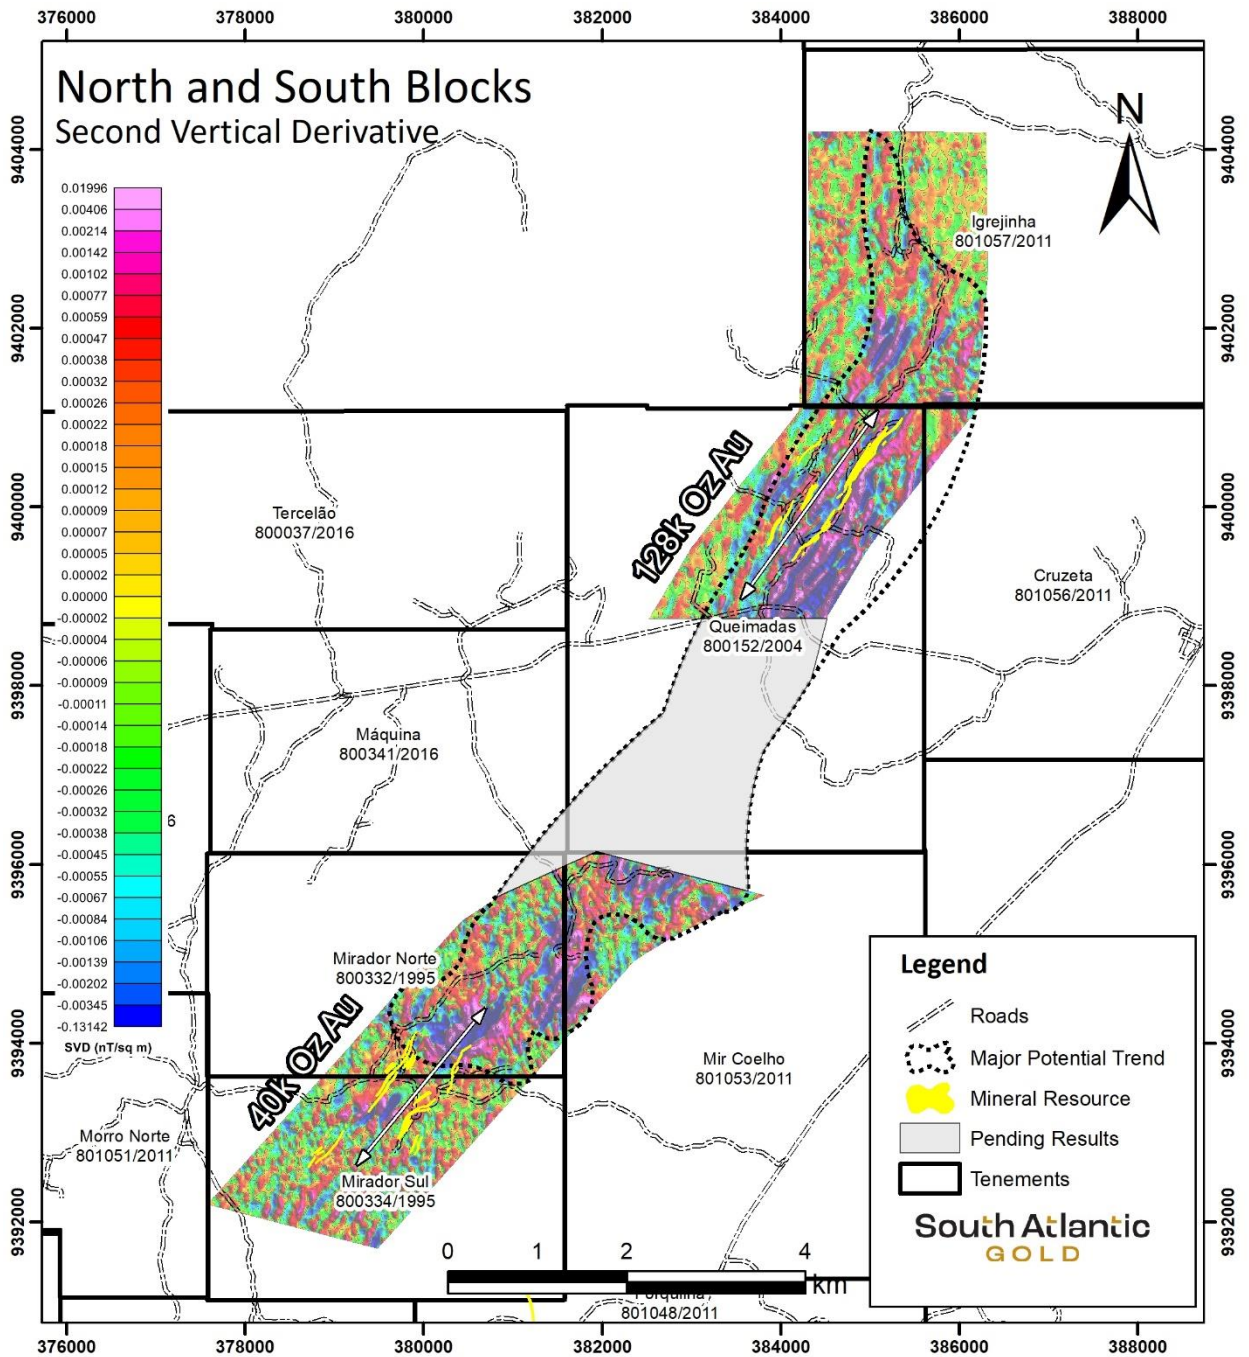

The completion of the drone magnetic survey provided significant results that will help guide and focus the next steps of the exploration program. As described in the 2021 – NI 43-101 Report the largest target, Queimadas, has an Inferred Resource of 3.2 million tonnes grading 1.24 grams per tonne gold for 128,000 ounces Au at an average 40 meters depth. The magnetic signature at this target leaves the possibility to expand the current Inferred resource with additional drilling.

As seen on the map below, the section of Queimadas is contrasted with the consolidated exploration programs completed at surface (average 40 m depth) in conjunction with the magnetic survey, demonstrating the new potential of this entire target area.

Remainder of page left blank intentionally

The drone survey also highlighted the area between Mirador and Queimadas as seen on the map below, which greatly aided the interpretation of the structures that connects these two main targets for a total length of 60 km. The Company has also completed the magnetic survey between these two areas and is expecting to receive the data in the next few weeks.

Total Exploration from Phases I and II

In the 1.5 years that South Atlantic has been exploring the Pedra Branca property, a significant amount of current and historical work has been completed within a limited budget. This geological work provides a basis for the initial understanding of the mineralization at Pedra Branca.

Exploration Results for Phase I and II Combined

Activity	Unit	Phase I	Phase II	Total
Stream Sediment Sample	Samples	0	231	231
Soil Sample	Samples	0	1,239	1,239
Trenching	#	92	48	140
	Meters	12,324	9,966	22,290
	Samples	12,170	5,038	17,208
RC Drilling	#	122	43	165
	Meters	5,022	1,657	6,679
	Samples	5,022	729	5,751
DD Drilling (Historical – performed in 2007/2008 by Jaguar Mining)	#			90
	Meters			8,913
	Samples			3,602

Geophysics

One of the important take-aways from the geophysical program is that the ore intercepts are seen to be concentrated at the flexures between magnetic highs (red and pink colors) and magnetic lows (blue color) at Queimadas, Mir-Quelho and Mirador Norte target areas. An interesting gap located to the south, southeast and northeast of the Inferred resource area of Queimadas has been interpreted as areas of interest from the geophysical data.

The density of the geophysical grid allows the trendlines in the gaps between Queimadas and Mirador and similar geophysical structures in the southern portion of Pedra Branca. These trendlines are clear in the mafic domain where most of the ore/mineralization is accompanied by magnetic minerals (pyrrhotite).

The geophysics results have identified dozens of potential mineralized-like anomalies that have not yet been investigated in the Phase I and II exploration programs. A host of prospective exploration targets have been identified from the magnetic results. These prospective targets require investigation as they may provide important geological information to resolve questions on structural issues.

See news releases dated June 13, 2022, May 6, 2022, March 7, 2022 and February 3, 2022 further details exploration results to date including QA/QC methods filed under the Company's profile on www.SEDAR.com and the Company's website at: www.southatlanticgold.com

Outlook

The Phase II exploration program enabled the Company to successfully deliver 15 detailed exploration reports to ANM which required very specific exploration work. The initial results of the drone survey has added another dimension to the collective Phase I and II exploration program results which has identified several new targets. With these several new compelling targets the Company anticipates the path forward for Pedra Branca to include further drilling to help define the boundaries of this district-scale asset. Additional working capital will be required to fund further exploration and drilling.

The Big Kidd Property

The Big Kidd Project consists of 4,056 hectares ("ha") accessed by paved highway (Highway 5A) from Merritt, BC and 250 km northeast of Vancouver, BC. The property is crosscut by logging roads, a powerline runs adjacent to the BK Breccia deposit and there is a custom mill at the historic Craigmont Mine (30 km to the north). In total, the infrastructure at Big Kidd is excellent. While the project is 100% owned by the Company, there is a 2.5% net smelter return royalty with full buy-back rights. The exploration target at the Big Kidd property is alkali porphyry type copper-gold deposit.

Exploration and Outlook

During Q2 2021 the Company completed an initial review of the historical data to perform a re-analysis of the drilling data with consideration to increased copper prices. Analysis of the historical Induced Polarization (“IP”) and Diamond Drill (“DD”) data has revealed an area of geologic interest at the Big Kidd Project area. **See news release of June 18, 2021 for additional details on www.SEDAR.com and the Company’s website at: www.southatlanticgold.com**

Should additional funds become available the Company’s technical team will look to outline an exploration plan and budget to further explore this asset and in the interim the Company is reviewing the merits of a joint venture partner or farm-out option.

Expenditures to date on Exploration and Evaluation Assets include:

For the Year ended February 28, 2022 include:

	Brazil Pedra Branca	Canada Bid Kidd	Total
Balance as at February 28, 2021	\$ 928,200	\$ 1,322,295	\$ 2,250,495

Selected Annual Information

The following table summarizes selected financial data reported by the Company for the years ended February 28, 2022, February 28, 2021 and February 29, 2020. The following annual results are compliant with IFRS.

	Years Ended		
	February 28 2022	February 28 2021	February 29 2020
	\$	\$	\$
Total Revenue	—	—	—
Net loss and comprehensive loss	(462,698)	(559,638)	(83,187)
Net loss per share basic and diluted	(0.01)	(0.01)	(0.00)
Total assets	4,693,170	3,386,069	1,442,301
Current liabilities	(403,006)	(485,256)	(162,936)
Long term liabilities	—	—	—
Shareholders' equity	4,290,164	2,900,813	1,279,465

Financial Results for the year ended February 28, 2022 and 2021

The Company has no operating revenues and relies on external financings to generate capital for its continued operations. As a result of its activities South Atlantic continues to incur annual net losses.

For the year ended February 28, 2022 the Company reported a \$462,698 net and comprehensive loss or \$0.01 basic and diluted loss per share compared to a \$559,638 or \$0.01 loss per share for the same comparative year ended February 28, 2021. The primary component of the current year loss was general and administration costs of \$339,481 (2021 - \$312,245) and share-based payments of \$187,976 (2021 - \$245,272) in connection with grant and vesting of stock options. Additionally the Company recorded interest income of \$4,919 (2021 - \$756) and other income of \$100,000 (2021 - \$Nil) related to a non-refundable deposit (the "Deposit") in connection with the negotiations of an option on Big Kidd however the terms of the agreement did not come to fruition as such the Deposit was recorded as other income. The Company also wrote-off certain prior payables during the current year of \$6,521 (2021 - \$Nil) that were estimated in prior years that did not come to fruition.

The summary of general and administrative expenditures included:

	For the Years Ended February 28	
	2022	2021
Administrative and General Expenses		
Accounting and legal	\$ 67,170	\$ 51,666
Consulting	52,934	89,036
Corporate development	-	5,000
Website, advertising, shareholder communication	53,100	28,101
Office and administration fees	122,859	93,335
Insurance	14,470	11,423
Regulatory fees	11,806	20,008
Rent	9,000	9,000
Transfer agent fees	5,122	4,386
Travel	3,020	290
	\$ 339,481	\$ 312,245

General and administrative expenses saw an overall 9% increase in expenditures noting the following significant variances:

Accounting and legal – increase in costs related primarily to 2022 increase in audit fees of \$5000 for the 2022 audit

Consulting fees – the decrease in consulting fees related to the CEO's fees being allocated between exploration and evaluation expenditures and administrative in Brazil.

Website, advertising, shareholder communication – the increase in costs included consulting fees for investor relations for a full year for the Company's VP of Investor Relations compared to only five months in the comparative year. Additionally the company engaged an additional marketing consultant for approximately \$15,000 for the current year. The Company also saw an increase in news release dissemination compared to the prior comparative year with an increase in exploration activities in the current year.

Office and administration –. Increase in expenditures relates to increase in cost for administration personnel and expenses for the Brazil subsidiary

Insurance – saw an increase in insurance premiums on the renewals of the company directors and officers liability and general liability policies in connection with an overall general increase of premiums in the current global climate.

Regulatory and transfer agent fees – the decrease for regulatory fees related to fewer reviewable transactions from the prior comparative year which had included the related fees for the acquisition of the Pedra Branca project.

Summary of quarterly results

The following is a summary of selected financial data for the Company for the eight most recently completed quarters.

	For the quarters ended			
	February 28 2022	November 30 2021	August 31 2021	May 31 2021
Total interest income	\$713	\$51	\$339	\$3,816
Net loss	(\$39,329)	(\$124,293)	(\$129,068)	(\$170,008)
Basic and diluted loss per share	(\$0.00)	(\$0.00)	(\$0.00)	(\$0.00)

	For the quarters ended			
	February 28 2021	November 30 2020	August 31 2020	May 31 2020
Total interest income	\$756	\$-	\$-	\$-
Net loss	(\$234,007)	(\$261,807)	(51,425)	(12,399)
Basic and diluted loss per share	(\$0.00)	(\$0.01)	(\$0.00)	(\$0.00)

Fourth Quarter:

During the fourth quarter February 28, 2022, the Company reported a loss of \$39,329 (2021 - \$234,007 or \$0.00 (2021 - \$0.00) loss per share. The primary component of the current loss primarily included general and administrative costs of \$77,471 (2021 -\$155,032) and share-based payment expense for vested options of \$33,813 (2021 - \$78,071) during the period. During the current fourth quarter the Company recorded \$100,000 (2021 - \$Nil) related to Deposit as described hereinabove and also wrote-off certain prior payables of \$6,521 (2021 - \$Nil).

Other Significant variances to note included:

For the three months ended November 30, 2020, the Company reported a \$261,807 net and comprehensive loss or \$0.01 basic and diluted loss which was primarily attributed to general and administration costs as described hereinbelow of \$103,956 and share-based payments of \$157,644 in connection the grant and vesting of stock options during the period.

Liquidity and capital resources

	February 28 2022	February 28 2021
Financial position:		
Cash	\$ 1,266,730	\$1,092,370
Working capital	\$ 915,121	\$ 656,046
Total Assets	\$ 4,693,170	\$3,386,069
Shareholders' equity	\$ 4,290,164	\$2,900,813

As at February 28, 2022 the Company had a working capital of \$915,121 (February 28, 2021 - \$656,046).

On December 17, 2021 the Company completed a non-brokered private placement and issued 35,000,000 common shares at an price of \$0.05 for gross proceeds of \$1,750,000 (the "Offering").

In connection with the Offering the Company has paid aggregate finders' fees of \$94,140 in cash and issued 1,882,800 finders warrants ("Finder Warrant"). Each Finder Warrant entitles the holder to acquire one additional Common Share at a price of \$0.06 per share until December 17, 2023.

Proceeds raised from the Offering will be used to further the Company's Pedra Branca Project in Brazil and for general working capital purposes.

During the year ended February 28, 2022 the Company received a mining exploration tax credit cash refund of \$356,757 (2021 - \$Nil) for exploration and evaluation expenditures during the years ended February 2020 and 2019.

A further net proceeds of \$19,625 was also recorded pursuant to the exercise of 265,000 agent warrants and \$0.075 per common share purchased.

Capital expenditures primarily included \$1,154,780 in exploration expenditures on Pedra Branca and Bid Kidd as described hereinabove which included completing the balance of the Earn-In Expenditures of US\$1M for the Pedra Branca Property. The recent completion of the Offering as described herein has strengthened the Company's current treasury however additional working capital will be required to complete further exploration programs at Pedra Branca and Big Kidd.

The Company has not yet generated revenue to date and the Company's activities have been funded through equity financing and the Company expects it will continue to be able to utilize this source of financing until it develops cash flow from future operations for the advancement of exploration and development of its exploration assets.

There can be no assurance that the Company will be successful in its endeavors. If such funds are not available or other sources of finance cannot be obtained, then the Company will be forced to curtail its activities to a level for which funding is available and can be obtained.

Off balance-sheet arrangements

There are currently no off-balance sheet arrangements and no new information to report since the annual management's discussion and analysis.

Transactions with related parties

Key Management Compensation

	February 28 2022	February 28 2021
Key management personnel compensation comprised:		
Consulting fees:	\$171,699	\$93,936
Administration	24,272	16,438
Share based payments:	192,136	206,894
	\$388,107	\$317,267

During the year ended February 28, 2021 and 2020 the Company paid or accrued the following to key management:

- i) Consulting fees of \$135,447 (2021 – \$47,250) to Douglas Meirelles (“**Meirelles**”) or a company controlled by Meirelles, the Company's President and CEO. Mr. Meirelles was appointed as President and CEO effective July 9, 2020.
- ii) Consulting fees of \$36,253 (2021 – \$46,686) to Minco Corporate Management Inc. (“**Minco**”) a company controlled by Terese Gieselman a director of the Company.
- iii) Administration fees of \$24,272 (2021 – \$16,438) to Minco in relation to providing administrative and accounting employment services.
- iv) Share-based payments are the fair value of options granted or vested to key management personnel.

Related Party Liabilities

Amounts due to:	Service for:	February 28 2022	February 28, 2021
Minco	Consulting Fees	\$2,991	\$6,928
Douglas Meirelles	Consulting Fees	-	22,750
Golden Ridge Resources Ltd. ¹	Rent & Expenses	-	788
Total related party payables		\$2,991	\$30,466

Rent¹

The Company currently pays Golden Ridge Resources Ltd. (a company with a common officer) rent and expenses on a month to month basis for shared offices space at approximately \$750 per month for a total \$9,000 as at February 28, 2022 (2021 – \$9,000).

Critical Accounting Policies and Estimates

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized in the period of the change, if the change affects that period only, or in the period of the change and future years, if the change affects both.

Information about critical judgments and estimates in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities included in the preparation of these financial statements are discussed below:

Going Concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year, and to fund planned and contractual exploration programs, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

Impairment of Exploration and Evaluation Assets

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company. If, after exploration and evaluation expenditures are capitalized, information becomes available suggesting that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount the Company carries out an impairment test at the cash-generating unit or group of cash-generating unit's level in the year the new information becomes available. Such impairment tests and recoverable value models have a degree of estimation and judgment which may differ in the future.

Valuation of Share-based Payments

The Company uses the Black-Scholes option pricing model for valuation of share-based payments. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

Recent and Future Accounting Pronouncements

There have been no accounting pronouncements with significant impact on the Company's consolidated financial statements.

Financial instruments and other instruments

The Company is exposed through its operations to the following financial risks:

- Market Risk
- Credit Risk
- Liquidity Risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these consolidated financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous years unless otherwise stated in the note.

General Objectives, Policies and Processes

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's management. The effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets are reviewed periodically by the Board of Directors if and when there are any changes or updates required.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices are comprised of interest rate and commodity price risk.

Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company has cash balances and non-interest-bearing debt. The Company's current policy is to invest excess cash in guaranteed investment certificates or interest-bearing accounts of major Canadian chartered banks. The Company regularly monitors compliance to its cash management policy. Cash is subject to floating interest rates.

Credit Risk

The Company, as at February 28, 2022 and 2021, does not have any borrowings. Interest rate risk is limited to potential decreases on the interest rate offered on cash held with chartered Canadian financial institutions. The Company considers this risk to be immaterial.

Commodity Price Risk

The Company's ability to raise capital to fund exploration or development activities may be subject to risks associated with fluctuations in the market prices of the relevant commodities. The Company closely

monitors commodity prices to determine the appropriate course of action to be taken by the Company.

Foreign Exchange Risk

Foreign currency risk is the risk that a variation in exchange rates between the Canadian dollar, United States dollar and Brazil Real and other foreign currencies will affect the Company's operations and financial results.

Foreign exchange risk

The functional currency of the parent and its subsidiaries is C\$. A portion of the Company's operating expenses are in Brazil Real.

As at February 28, 2022, the Company has not entered into contracts to manage foreign exchange risk.

The Company is exposed to foreign exchange risk through the following assets and liabilities:

	February 28 2022	February 28 2021
Cash	\$154,322	\$318,170
Accounts payable and accrued liabilities	(279,806)	(305,827)
	\$(125,484)	\$12,343

As at February 28, 2022, with other variables unchanged, a 5% increase or decrease in value of the Brazil Real against the currencies to which the Company is normally exposed (C\$) would result in an increase or decrease of approximately C\$6,700 to the net loss for the year ended February 28, 2022.

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Financial instruments which are potentially subject to credit risk for the Company consist primarily of cash and receivables. Cash is maintained with financial institutions of reputable credit and may be redeemed upon demand and receivables are entered into with credit-worthy counterparties.

The carrying amount of financial assets represents the maximum credit exposure. Credit risk exposure is limited through maintaining cash with high-credit quality financial institutions and management considers this risk to be minimal for all cash assets based on changes that are reasonably possible at each reporting date.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to endeavour that it will have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. However, circumstances may arise where the Company is unable to meet those goals. The key to success in managing liquidity is the degree of certainty in the cash flow projections. If future cash flows are fairly uncertain, the liquidity risk increases.

Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 90 days. To achieve this objective, the Company would prepare annual capital expenditure budgets, which are regularly monitored and updated as considered necessary. Further, when required the Company utilizes authorizations for expenditures on exploration projects to further manage expenditure.

The Company monitors its risk of shortage of funds by monitoring the maturity dates of existing trade and other accounts payable and option payment commitments. The Company endeavours not maintain any trade payables beyond a 30-day period to maturity.

Determination of Fair Value

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The consolidated statements of financial position carrying amounts for trade and other payables and rehabilitation provision approximate fair value due to their short-term nature.

Due to the use of subjective judgments and uncertainties in the determination of fair values these values should not be interpreted as being realizable in an immediate settlement of the financial instruments.

The fair value of cash has been determined by reference to published price quotations in an active market, a Level 1 valuation.

CAPITAL MANAGEMENT

The Company monitors its common shares, warrants and stock options as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares. Although the Company has been successful at raising funds in the past through the issuance of share capital, it is uncertain whether it will continue this method of financing due to the current difficult market conditions.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. Management reviews the capital structure on a regular basis to ensure that the above objectives are met. The Company's capital is not subject to any externally imposed capital requirements. There have been no changes to the Company's approach to capital management during the year ended February 28, 2022.

Outstanding Share Data

South Atlantic's authorized capital is unlimited common shares without par value. As at the date of this report 94,331,667 common shares as issued and outstanding as of the date hereof. Additionally, the Company as at the date of this report had the following outstanding options, share purchase warrants and agent warrants as follows:

Share Purchase Warrants

Expiry Date	Exercise Price	Number of Warrants
October 8, 2022	\$0.15	8,750,000
		13,550,000

Agents Warrants

Expiry Date	Exercise Price	Number of Warrants
October 8, 2022	\$0.15	676,250

November 10, 2025	\$0.14	3,080,000	2,136,667	943,333
January 5, 2027	\$0.06	3,560,000	890,000	2,670,000
		7,465,000	3,851,667	3,613,333

Shares in Escrow

As at the date of this report hereof there were no shares held in escrow.

Risks and uncertainties

The Company is in the mineral exploration and development business and as such, is exposed to a number of risks and uncertainties that are not uncommon to other companies in the same business. The industry is capital intensive and is subject to fluctuations in market sentiment, metal prices, foreign exchange and interest rates. There is no certainty that properties which the Company has described as assets on its balance sheet will be realized at the amounts recorded. The only sources of future funds for further exploration programs or, if such exploration programs are successful for the development of economic ore bodies and commencement of commercial production thereon, which are presently available to the Company are the sale of equity capital or the farm-out, of an interest in its properties to be earned by another party carrying out further exploration or development. Although the Company has been successful in accessing the equity market during the past years, there is no assurance that such sources of financing will be available on acceptable terms, if at all.

The Company's subsidiary SAG currently has 12 employees. All other work is carried out through independent consultants and the Company requires that all consultants carry their own insurance to cover any potential liabilities as a result of their work on a project. In certain cases where consultants are unable to carry their own insurance the Company includes such individuals under its coverage.

Pursuant to the Company's Option to acquire the Pedra Branca Property located in Brazil the Company is subject to additional risk factors in relation to operating in a foreign jurisdiction which initially include but are not limited to:

Political stability and government regulations in Brazil

The Company's interests in Brazil that may be affected in varying degrees by political instability, government regulations relating to the mining industry and foreign investment therein, and the policies of other nations in respect of Brazil. Any changes in regulations or shifts in political conditions are beyond Company's control and may adversely affect its business. Company's operations may be affected in varying degrees by government regulations, including those with respect to restrictions on production, price controls, export controls, income taxes, expropriation of property, employment, land use, water use, environmental legislation and mine safety. The regulatory environment is in a state of continuing change, and new laws, regulations and requirements may be retroactive in their effect and implementation. The Company's operations may also be adversely affected in varying degrees by political and economic instability, economic or other sanctions imposed by other nations, terrorism, military repression, crime, extreme fluctuations in currency exchange rates and high inflation.

COVID-19 Pandemic Risk - Brazil

The recent outbreak of COVID-19 has had a significant impact on the volatility of USD/BRL exchange rates, and governmental actions to contain the outbreak may impact our ability to continue exploration activities. The global pandemic could cause temporary closure of businesses in regions that are significantly impacted

by the health crises, or cause governments to take or continue to take preventative measures such as the closure of points of entry, including ports and borders which could impact our ability to staff operations.

Environmental Compliance.

The Company is currently taking all necessary technical and administrative steps to remain compliant with all licensing and permits required during its current Pedra Branca Project Exploration Licenses development stage. In addition, the Company is now required to conduct an Environmental Impact Study specifically to ANM Process 800.334/1995, moving forward into the mining concession stage.

ANM has issued Ordinance 55/2021 suspending all processual deadlines for mineral processes until June 30th, 2021. Time count restarts from July 1st, 2021.

Going Concern

The Company has not generated revenues from its operations to date. These consolidated financial statements are prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. For the year ended February 28, 2022, the Company had a net loss of \$462,698 (2021 – \$559,638), and as of that date, working capital of \$887,560 (2021 - \$642,026) and an accumulated a deficit of \$3,403,304 (2021 – \$2,940,606). The Company will continue to have to raise funds in order to continue the development of its exploration properties and general operations.

As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties. The Company has financed its operations to date primarily through the issuance of common shares and exercise of stock options and share purchase warrants.

Management cannot provide assurance that the Company will ultimately achieve profitable operations or positive cash flow. The Company's continuation as a going concern is dependent on its ability to attain profitable operations and raise additional capital. These matters indicate the existence of material uncertainties that cast significant doubt about the Company's ability to continue as a going concern. The Company's accompanying financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported revenues and expenses and statement of financial position classifications that would be necessary if the going concern assumption was inappropriate. Such adjustments could be material.

Any forward-looking information in this MD&A is based on the conclusions of management. The Company cautions that due to risks and uncertainties, actual events may differ materially from current expectations. With respect to the Company's operations, actual events may differ from current expectations due to economic conditions, new opportunities, changing budget priorities of the Company and other factors.

Other Requirements

Additional disclosure of the Company's material change reports, news release and other information can be obtained under the Company's profile on SEDAR at www.sedar.com.
