Supplemental cash flow information – Note 15

1. CORPORATION INFORMATION

South Atlantic Gold Inc. (the "Company" or "South Atlantic") was incorporated on October 17, 2006 under the laws of British Columbia, Canada. On November 19, 2020, the Company changed its name from Jiulian Resources Inc. to South Atlantic Gold Inc. Effective November 24, 2020, the Company commenced trading on the TSX Venture Exchange (the "Exchange") under the new symbol "SAO" as a Tier 2 issuer.

The Company's registered office is located at 301 – 1665 Ellis St, Kelowna, BC V1Y 2B3.

The Company is primarily engaged in the acquisition, exploration and development of mineral properties located in Brazil. To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The Company's current properties include the Pedra Branca project in Brazil.

2. BASIS OF PREPARATION AND GOING CONCERN

These condensed consolidated interim financial statements for the three and six month period ended August 31, 2024 and 2023 and have been prepared in accordance with IAS 34 Interim Financial Reporting. These condensed consolidated interim financial statements follow the same accounting policies and methods of application of the Company's most recent annual financial statements. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Company's February 29, 2024 annual financial statements which have been prepared in accordance with International Financial Reporting Standards ("**IFRS**"), as issued by the International Accounting Standards Board ("**IASB**").

The condensed consolidated interim condensed interim financial statements were authorized for issue by the Board of Directors on October 28, 2024.

These condensed consolidated interim financial statements have been prepared on the historical cost basis except for certain financial instruments which have been measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The condensed consolidated interim financial statements are presented in Canadian Dollars, which is the functional currency of the Company and its subsidiary.

The preparation of condensed consolidated interim financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the condensed consolidated interim financial statements, are disclosed in Note 4.

Going Concern

The Company has not generated revenues from its operations to date. These condensed consolidated interim financial statements are prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. For the six months ended August 31, 2024, the Company had a net loss of $130,805 (August 31, 2023 - $515,464), and as of that date, an accumulated a deficit of $5,332,627 (February 28, 2024 - $5,201,822). The Company will continue to have to raise funds in order to continue the development of its exploration properties and general operations.

2. BASIS OF PREPARATION AND CONTINUANCE OF OPERATIONS (cont'd)

As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties, and upon future profitable production or proceeds from the disposition of the properties. The Company has financed its operations to date primarily through the issuance of common shares and exercise of stock options and share purchase warrants.

Management cannot provide assurance that the Company will ultimately achieve profitable operations or positive cash flow. The Company's continuation as a going concern is dependent on its ability to attain profitable operations and raise additional capital. These matters indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern. These condensed consolidated interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported revenues and expenses and condensed consolidated interim statements of financial position classifications that would be necessary if the going concern assumption was inappropriate. Such adjustments could be material.

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The significant accounting policies applied in the preparation of these condensed consolidated interim financial statements are consistent with the accounting policies disclosed in Note 3 of the Company's audited financial statements for the year ended February 29, 2024. These condensed consolidated interim financial statements should be read in conjunction with the audited financial statements of the Company for the year ended February 29, 2024.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized in the period of the change, if the change affects that period only, or in the period of the change and future years, if the change affects both.

Information about critical judgments and estimates in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities included in the preparation of these condensed consolidated interim financial statements are discussed below:

Going Concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year, and to fund planned and contractual exploration programs, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (cont'd)

Impairment of Exploration and Evaluation Assets

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company. If, after exploration and evaluation expenditures are capitalized, information becomes available suggesting that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount, the Company carries out an impairment test at the cash-generating unit or group of cash-generating unit's level in the year the new information becomes available. Such assessments of impairment have a degree of estimation and judgment which may differ in the future.

Valuation of Share-based Payments

The Company uses the Black-Scholes option pricing model for valuation of share-based payments. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate, and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

Purchase Agreement

On July 15, 2024 the Company entered a definitive purchase and sale agreement (the "**Purchase Agreement**") between the Company and TRR Services LLC ("**TRR**") (in consideration of a cash payment of $575,000 net of the set-off of the $7,500 reclamation bond ($567,600). Additionally the Company, TRR and Quetzal entered into an assignment and assumption agreement (the "**Assignment**") wherein the Company assigned all its rights, title and interest in the Amended Option to TRR with the exception that the Company will retain the SAO NSR as described hereinabove.

Realization

The Company's investment in and expenditures on exploration and evaluation assets comprise a significant portion of the Company's assets. Realization of the Company's investment in the assets is dependent on establishing legal ownership of the property interest, on the attainment of successful commercial production or from the proceeds of its disposal. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of the property interest, and upon future profitable production or proceeds from the disposition thereof.

Title

Although the Company has taken steps to ensure the title to exploration and evaluation assets in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures may not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

Environmental

Environmental legislation is becoming increasingly stringent, and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions. If the restrictions adversely affect the scope of exploration and development on the exploration and evaluation assets, the potential for production on the property may be diminished or negated.

7. RECLAMATION BOND

The Company is required to make reclamation deposits in respect of its expected rehabilitation obligations. The reclamation deposits represent collateral for possible reclamation activities necessary on mineral properties in connection with the permits required for exploration activities by the Company on its Big Kidd Property. The reclamation deposits are held with the Minister of Energy and Mines in British Columbia. The reclamation bond includes a guaranteed investment certificate with a maturity date of December 3, 2024 and an interest rate of prime less 2.7%.

d) RSUs and DSUs

On October 21, 2022 the Board of Directors adopted a long have adopted a restricted share units ("**RSUs**") and deferred share units ("**DSUs**") long term incentive plan (the "**LTIP**") approved by shareholders on January 5, 2024.

Under the LTIP, RSUs and DSUs are granted to the Company's directors, officers, consultants, and employees as a part of compensation under the terms of the Company's restricted share units plan. Each RSU or DSU entitles the participant to receive the value of one Common Share. The maximum number of RSU or DSU awards and all other security-based compensation arrangements shall not exceed 9,433,166 common shares of the Company.

The number of RSUs or DSUs awarded and underlying vesting conditions are determined by the Board of Directors in its discretion. In accordance with the LTIP, upon each vesting date the Company shall decide, at its sole discretion whether participants receive (a) the issuance of Common Shares equal to the number of RSUs or DSUs vesting; (b) a cash payment equal to the number of vested RSUs multiplied by the fair market value of a Common Share, calculated as the closing price of the Common Shares on the TSX-V for the trading day immediately preceding such payment date; or (c) a combination of (a) and (b).

On the grant date of RSUs or DSUs, the Company determines whether it has a present obligation to settle in cash. If the Company has a present obligation to settle in cash, the RSUs or DSUs are accounted for as liabilities, with the fair value remeasured at the end of each reporting period and at the date of settlement, with any changes in fair value recognized in profit or loss for the period. The Company has a present obligation to settle in cash if the Company has a past practice or a stated policy of settling in cash, or generally settles in cash whenever the counterparty asks for cash settlement. If no such obligation exists, RSUs or DSUs are accounted for as equity settled share-based payments and are valued using the share price of the Common Share on grant date. Since the Company controls the settlement, the RSUs or DSUs are considered equity settled.
